

Redefine Donor Recognition:

Show your appreciation in a cutting edge way and let your donors know just how much their generosity means to you. By combining an Interactive Donor Wall with traditional static signage you are able to elegantly highlight your contributors while using technology to help them tell their story as to why they gave and where their money went to help your organization.

With an Interactive Donor Wall you can:

- Customize the design with your colors and logo
- Display pictures, videos and bios
- Show unlimited profiles
- Search with the touch of a finger
- Highlight "featured donors"
- Update donor information regularly
- Use categories to show different donor levels
- Incorporate way-finding
