INSPIRATIONAL DESIGN. DYNAMIC SPACES. FLEXIBLE SOLUTIONS.

Each environment in the educational setting plays a part in enabling and motivating students to learn. Our high-caliber furniture collections seamlessly combine utility, comfort, and style with innovative design touches, at a wide range of price points. Explore the possibilities with Lewis Stevenson.

CLASSROOMS

Today's instructors need fluid spaces where students can focus independently and move freely as they engage in hands-on learning. Provide the tools for enlightenment with versatile desks, smart seating, sliding whiteboards, writable surfaces, and more.

TEAM SPACES

Huddle up. Break it down. Create adaptable meeting areas, with built-in power and hookups, that invite collaboration while also providing privacy for more in-depth discussions.

LOUNGE AREAS

Freedom is essential to learning—especially beyond the classroom door. Optimize lounges, hallways, and common areas with comfortable furnishings and built-in connectivity to encourage both group study and independent pursuits.

LIBRARIES

Today's libraries and media centers are versatile and functional. Think wall-mounted tables with screen integrations, nesting tables on casters, and modular collections designed for sitting, standing, perching—the freedom to move and think at the same time.

ADMIN & FACULTY OFFICES

Invite a productive exchange of ideas behind the scenes. Flexible seating, filing, and work-surface solutions provide engaging common areas while elegant furnishings personalize private offices.

CAFÉ & DINING

Make refueling about more than just food and coffee. Design multi-use dining spaces with stylish stools and lounge chairs; counters and tables that double as work surfaces; clean, easy solutions for technological integration.

OUTDOOR

Elevate outdoor spaces with sturdy benches, tables, chairs, message centers, and more designed to withstand the elements. Provide a place in the fresh air for students to learn, grow, and even find a moment of peace between classes.
